PRESIDENT'S MESSAGE

by Steve Socolosky

Hello to all our EAA 166 Members and Student Members!

Our next meeting will be held on SATURDAY, FEBRUARY 24th at 10:00 AM, at the NEW ENGLAND AIR MUSEUM!

As our so-called 'winter' continues on, there have been some great opportunities to fly with warmer-than-normal temperatures! However, we all know how New England weather can be! 'It ain't over 'til it's over!'

EAA's Leadership Boot Camp, last week on Saturday, February 10, was well-attended by 35 at the New England Air Museum, including our own 166 Student Member, Isabella Puiggari and 166 Members Brenda Rossignol, Manu Ramesh and Bill Barry. We cannot thank Jaime Smith, Tien-Tien Fry, Brenda Rossignol and Rick Montero enough, for gathering up all the food for the all-day event! A HUGE thanks to the New England Air Museum, who was once again, very welcoming to us and allowed us to use their unbelievable facilities for the Boot Camp!

We will once again promote and sign up Young Eagles at the New England Air Museum's "Women Take Flight" event on Saturday, March 2nd! You can learn more [HERE!](#)

Rick Montero and the whole RV-12 Build Team, continue to make progress on our RV-12! Please check out 166 Member Larry Anglisano's latest RV-12 video [HERE!](#)

Finally, one more time, DUES ARE DUE, please! \$20

See you all on Saturday, February 24th at the New England Air Museum!

Thank you and BLUE SKIES!
Steve

NEXT MEETING

**February 24,
2024, 10:00am**

**New England
Air Museum**

With wiring, flight control hardware, seat belt/shoulder restraints and the remote components that support the Garmin G3X Touch avionics in place, it's time to assemble the RV-12 cabin floor panels in preparation for installing the seats. In this latest RV-12 build VLOG by Larry Anglisano (the first of 2024), project lead Rick Montero offers an update on the build, including what's required to accomplish more service bulletins. Click the player above to watch the video.
